The Council of the Borough of Monroeville does hereby ordain and enact the following Ordinance:

SECTION 1. From and after the adoption of this Ordinance, where the Borough of Monroeville has erected, constructed or built, or where the said Borough shall erect, construct or build, a sanitary sewer in said Borough, either as a trunk sewer or a lateral sewer and there has been no assessment for the construction costs of the same, made against the property or the owners of property through or along which the sanitary sewer is constructed or erected, all persons, firms or corporations who have erected or caused to be erected, dwellings or buildings on the said property and desire or are required to make connection with and to the said sanitary sewer, shall pay a stipulated sum to the said Borough of Monroeville, in addition to the regular sewer inspection fee and permit fee.

SECTION 2. That at the time the application is made for the Permit to make connection with the sanitary sewer or a lateral or branch sanitary sewer of the said Borough, as required by Borough Ordinance by each person, firm or corporation, desiring to make connection or connections of a dwelling or building, into and with the said sanitary sewer, there shall be paid to the Borough Secretary, for the use of said Borough, the sum of Two Hundred Fifty (\$250.00) Dollars for each such connection for each such dwelling or building.

SECTION 3. That the Borough Engineer of said Borough or such other officer as Borough Council shall designate, shall have the right to determine the manner and method and construction of the sanitary sewers to be connected to the Borough's sanitary sewers.

SECTION 4. That it is the intention of the Borough Council by this Ordinance to provide for the payment for the control of the right of direct entrance or connection into and with the trunk or lateral branch sewers of the said Borough

where no assessment has been made against such property or owners of property, for the construction cost of said sewer. The said Two Hundred Fifty (\$250.00) Dollars being charged in lieu of an assessment for the construction cost of the same; the said Two Hundred Fifty (\$250.00) Dollars connection fee shall be paid for each and every dwelling or building sewer connected to a branch or lateral sewer line of a sewer system of any plan of lots, which shall be or become connected and joined to and with any Borough sanitary sewer; in the case of multiple dwellings buildings, the Borough Council is authorized to regulate and establish a higher rate scale for connection fees therefor, which shall have the effect as though they had been originally stated and fixed herein; however, the said requirement of payment for connection, shall not apply and said payment shall not be due, where an assessment has been or shall be made by the said Borough against the property or property owners for such construction costs.
