Re: Bay Hill Plan of Lots Sanitary Sewer Module

Dear Mr. Alston:

In the early stages in the application for the Bay Hill Plan of Lots we requested the Council of Monroeville to authorize signature of the Phase II module for application for sewer extensions in the Bay Hill Plan of Lots. This was approved at a Council meeting sometime in July. On July 5, 1989 Governor Casey signed House Bill 439 which states that sewer permits for minor subdivisions of less than 250 housing units does not require to have the phase II sewer module submitted to the DER.

Accordingly, would you please cancel my request for the extension of the phase II sewer module as this is no longer required by the Department of Environmental Resources.

Very truly yours,

Vincent A. Amore
